Notes on Installation	<ul style="list-style-type: none"> ◆Apply the adhesive on the whole surface of the sub-floor thinly and evenly. After drying, when the adhesive becomes translucent, install the tiles. Be careful not to put the tiles too tightly. ◆When you install DIFFEBRILLER on the free access floor, each tile should be laid to stride over the joint of free access floor panels in the middle. (The joint of DIFFEBRILLER should not be matched to that of free access floor panels.) ◆Occasionally the direction of tip sheared piles are partly broken in part, which looks like color shading. This is one of the characteristics of tip sheared carpets and not a manufacturing defect. 				
Others	<ul style="list-style-type: none"> ◆The color shading differs on a tile-by-tile basis. In case you do not feel comfortable about the floor after installation, please change the tiles partly so that it will look natural. ◆Please note that the product has the indigenous odor from its materials.
