

MAYORICA <GX-2100>

category: carpet tile

Many different patterns will create a beautiful patchwork on the floor. MAYORICA's innovative concept enables various design proposals. Coordination with different floor covering will also make your space attractive.

Composition	surface	BCF Nylon 100%		dyeing method of yarn	Solution Dyed
	base fabric	Nonwoven Polyester		backing	PVC and Glass Fiber
Specification	size	500mm x 500mm		overall thickness	8.0mm
	pile height	H 5.0mm / M 4.5mm / L 3.0mm (textured loop pile)			
	gauge	1/12	stitch	11.0	yarn weight (oz/sq.yd)
Packing	16pcs/box = 4m ² /box				
Net Weight	20.2kg/box				
Performance	Smoke Density (flaming)	(ASTM E662)		Less than 450	
	Flame-retardant	Fire Defense Law in Japan Authorized No.E2160060			
	Antistatic	Less than 1.0kv (JIS L 1021-16, at 23 degrees centigrade, 25%RH)			
	Stain-resistant	Stain Release (NANO CLEAN)			
Way of Installation	Monolithic or Quarter Turn or Random				
Recommended Adhesive from TOLI	TOLI ECO GA Cement		(required quantity)	for steel or plastic sub-floor	40 to 60 gram/m ²
				for mortar and wood sub-floor	60 to 100 gram/m ²
Notes on Installation	Apply the adhesive on the whole surface of the sub-floor thinly and evenly. After drying, when the adhesive becomes translucent, install the tiles. Be careful not to put the tiles too tightly.				
Others	♦MAYORICA has different patterns for one single color number. In one same box different patterns are packed at random. ♦When you place the order for MAYORICA, the pattern cannot be specified.

New stain release "NANO CLEAN" is launched.
<In addition to existing stain release by fluoridation, more excellent Nano finish is put on the surface.>

All the nylon carpet tile products from TOLI have the stain release finish by fluoridation on the surface. Because of that, dirt and stains are difficult to be stuck on the surface and beautiful appearance can be kept for long. As this finish also has water and oil repellent property, spilt water and oil cannot be absorbed in the nylon surface. As long as you remove them promptly, no stain will be left.

"NANO CLEAN" is the newest stain release finish where special Nano finish is added to existing stain release by fluoridation. This new technology shows fantastic stain-resistant performance particularly to sands and soils.
