Way of Installation	Ashlar or Monolithic

Recommended Adhesive from TOLI	TOLI ECO GA Cement	(required quantity)	for steel or plastic sub-floor	40 to 60 gram/m²
			for mortar and wood sub-floor	60 to 100 gram/m²

Notes on Installation
✦Apply the adhesive on the whole surface of the sub-floor thinly and evenly. After drying, when the adhesive becomes translucent, install the tiles. Be careful not to put the tiles too tightly.
✦When you install SRONE on the free access floor, each tile should be laid to stride over the joint of free access floor panels in the middle. (The joint of SRONE should not be matched to that of free access floor panels.)

Others
✦The color shading differs on a tile-by-tile basis. In case you do not feel comfortable about the floor after installation, please change the tiles partly so that it will look natural.
✦Please note that the product has the indigenous odor from its materials.
